THE ALICE KINGSNORTH SCHOLARSHIP

Work Experience in the UK

- In 2015 I received an Alice Kingsnorth Scholarship
- The scholarship allowed me to travel to the UK and work with organisations that assist & support people who work with hoarders and people who live in squalor.
- The aim was to experience first hand how a collaborative approach may assist tenants with complex needs.

What did I bring back

- A positive understanding of how to work side by side with hoarders to achieve better outcomes.
- Confidence to introduce a person centred approach around the clients priorities & goals
- How to create and facilitate hoarding self help groups
- How to implemented and facilitate hoarding awareness training

WHERE TO NOW?

- Development of Hoarding Awareness training
- The creation of self help groups that contain an educational session and allow time for social interaction
- Development of protocols for all sectors working with hoarders.
- The formation of Hoarding Taskforces at a state level.

THANK YOU
